PROFESSIONAL SUMMARY

IT professional with a background in **network engineering** and **data/systems analysis**, now focused on frontend and mobile development. Building apps and websites with **React.js, React Native, and Flutter** — driving development through **AI coding agents (Claude, Antigravity)**, guided by detailed project specs, to consistently deliver faster and with higher quality than standard timelines.

PROFESSIONAL EXPERIENCE

Mobile App & Web Developer

03/2026 – Present | Remote

Freelancer

- Build and maintain mobile applications using Flutter, with a focus on production-ready, scalable code.
- Deliver React.js web projects end-to-end — from UI implementation to deployment-ready builds — for fintech/utility-sector clients.
- Use AI coding agents (Claude, Antigravity), guided by detailed project specs, to speed up delivery on multi-month builds without compromising quality.
- Work independently across the full frontend lifecycle: component architecture, state management, styling, and cross-platform testing.

React JS Developer

01/2026 – 03/2026 | Remote

Appverse Internship 

- Built responsive web applications using **React, JavaScript (ES6), HTML, and CSS**.
- Developed dynamic forms, lists, and reusable UI components.
- Implemented conditional rendering and state-based UI updates.
- Practiced real-world scenarios, including student management and product listing apps.
